GRADUATE STUDIES

CASE WESTERN RESERVE
UNIVERSITY

Graduate Student Appreciation Award

The School of Graduate Studies is pleased to announce a new opportunity for faculty and staff to recognize graduate students that make a difference on our campus and/or the Cleveland community.

Please see the below announcement:

Graduate Student Appreciation Award Nomination Criteria:

Help us celebrate graduate students that make a difference!

Graduate school is a busy time when students focus the bulk of their energy on their graduate career. In the words of Winston Churchill, “We make a living by what we do, but we make a life by what we give.” There are grad students on this campus that go above and beyond what’s expected. Their actions improve the campus community, the city of Cleveland, and touch the lives of many people.

Do you know a grad student that embodies these principles? Maybe they volunteer in their department, mentor younger students, are involved at Case in other professional or social groups, or donate time to a community organization. These extra-curricular activities are integral for a complete graduate student experience. We want to recognize those students that exceed the typical expectations of a graduate student and improve the lives of others around them.

We are reaching out to the campus community in search of recommendations so these students are celebrated and appreciated for their contributions. Please nominate graduate students you know that fit this criterion at the below link:
